VIGOROUS OLD AGE.

Mr. J. B. Potter, Centreville, R. I., 80 years old, writes, Sept. 15, 1899, of PAINE'S

Celery Compound;

"Fifteen years ago I had to give up business on account of very poor health. I was suffering from a number of old chronic diseases and had complete nervous prostration. In 1891 I commenced taking Paine's Celery Compound and soon found that I was getting the better of my complaints. I continued using until I was restored to good health. Believing that an ounce of prevention is worth a pound of cure, I take the Compound in the spring and fall, and it keeps me well. Paine's Celery Compound has made almost a new man of me, and I have gained twenty-eight pounds of good, solid flesh and blood, thanks to its use."

Brothers is a line of industry that well repays a visit to it. This firm commenced
business in Northfield ten years ago in a
small way. Totay they have seventy-five
men on their pay roll, and disburse in
wages about \$3,000 monthly. Nearly all
their employers have homes in Northfield,
and this money is largely extended among
the business men of Northfield. Business
is crowding this firm to such an extent that
they are obliged to work gangs of men until
midnight every night, and they are in need
of additional cutters. This firm closed a
contract on Medicay for a \$10,000 vanit to
be shipped to New York by March 1. One
peculiar feature of this order is teat the be shipped to New York by March 1. One peculiar feature of this order is that the inside, roof, shelves, etc., are to be of grantle, so that both exterior and interior will be finished in grantle. This vanit will contain about 1,800 cubic feet of stone. Another vault nearly as large is nearly ready for shipment, as is a massive monument for San Francisc, on which they have been at work for several months. Sull another monument destined for St. Louis is in hand and well on toward comple ion that will reand well on toward comple ion that will re-

Cross Brothers have already work on hand to keep their entire force busy well toward Memorial Day, and are still figuring on other large contracts. Northfield people appreciate such a business in their mids!, and well they may, for its influence is felt in every line of trade.
